A new concept in gameplay allows players to match symbols of the same color together and create bigger snowflakes. Enjoy the challenge of this visually stunning match 3 game. - BlueBit Games - Snowdrift Puzzle 3.0 Description: Your goal in Snapbot is to destroy the red blocks by matching them in your line. Each time you match two adjacent blocks the value of the blocks drops and they topple over. The higher the value, the more blocks you have to match. You can customize the size of the blocks and the speed of their fall. There are three different difficulty levels: * Beginner - easier * Advanced - harder * Epic - the hardest - BlueBit Games - SnapBot 3.0 Description: If you like line games, you will love this one! LineColossus is a match 3 game with a nice multiplayer element. You control a giant robot who wants to take over the world. There is just one problem: The world is full of enemies which you need to eliminate in order to get to the boss. - BlueBit Games - LineColossus 3.0 Description: Pure Chess is a fast-paced battle of wits in the style of classic chess. In this 3D chess game, you are the king and you have to defend yourself by moving your army and attacking with your strongest units. Your army is the most important asset you have at your disposal and you have to use your strong knights, bishops and other pieces to attack and defend the enemy. - BlueBit Games - Pure Chess 3.0 Description: The aim of Marble Blast is to clear the marble columns and collect the gems on your way. In this game you have to maneuver a marble through obstacles.
