SAN FRANCISCO -- A  
California jury has convicted two women  
of stabbing a woman inside a San  
Francisco apartment in a bizarre attack  
that was caught on a surveillance camera  
and helped police find two stabbings  
nearly a decade ago. The jurors found  
Valorie Keene, 35, and her friend June,

50, guilty of aggravated mayhem for the Dec. 7, 2013, attack. The women also were convicted of possessing a deadly weapon. They face a maximum prison sentence of 17 years. "It is not often that a jury finds a defendant guilty of aggravated mayhem. So there will be justice here," a spokesman for the San Francisco district attorney's office told The San Francisco Chronicle on Monday.

Get Breaking News Delivered to Your Inbox June is the sister of Keene's former boyfriend, Armando Morales, the San Francisco district attorney's office said. In an interview with CBS San Francisco, Keene said she was not aware of why her former boyfriend's sister was at her home. She said she had learned of the attack the

proprietary file format developed by Adobe Systems and named Portable Document Format (PDF). PDF is native to Adobe Acrobat. AutoCAD natively supports importing and exporting PDF files. These file formats are supported by a number of software packages, such as Onshape (for DWG and PDF), Photoshop (for PDF) and Adobe Acrobat (for PDF). Importing and exporting of these native files allows sharing of the data, including drawings, with non-AutoCAD applications and non-AutoCAD systems. Some third-party software packages can open and export AutoCAD native files, which allows importing AutoCAD drawings into the third-party applications, or vice versa. Importing and exporting capabilities Autodesk Exchange Apps are a feature of AutoCAD and are available on the Autodesk Exchange Apps App Center. Autodesk Exchange Apps are supported by the most recent versions of AutoCAD.

The type of Exchange App is defined in the file extension of the file extension and file name of the file. For example, Autodesk Architectural Desktop - Architectural 3D has a file extension of .apd3D and the first part of the file name identifies the application. However, if Architectural 3D is used on an earlier version of AutoCAD, the file will be named .apd3D.apd on AutoCAD 2016, or .apd3d.apd ca3bfb1094
