The basic system: ◆ Movement The left and right keys allow you to move. Pressing Z and X will give you a short-range attack. The higher the number displayed, the greater the strength of the attack. Once a short-range attack ends, you will automatically be able to perform a medium-range attack by pressing X, but it will take a while to perform. ◆ Item Use Press R to use an item. You will have eight different items equipped at all times. They include equips that increase your attack power, health regeneration, and so on, and the ability to attack again, recover mana, and so on. ◆ Overhead Attacks You can attack enemies above, below, and to the sides of you. If the enemy you attack falls below you, you will receive attack bonuses. ◆ Establishing Offensive Positions There are a variety of positions in which you can attack. It is important to establish your attacking position before launching an attack. There are some special attacks, such as a quick attack. ◆ Magic You can cast spells during battle. Each party member can equip a different number of different spells. The spells you have equipped will be displayed on the screen. During battle, you can cast spells by pressing the corresponding number. Cast times and cooldown periods vary. ◆ Information You can obtain various information in battle. Attack power, item strength, and so on can be obtained in this way. ◆ Skills You can upgrade your skills in two ways. You can collect EXP from battle, or learn to use a skill that is equipped in the skill tree. You can have five skills in your skill tree at a time. Each skill has their own unique effects. The highest five skills can be displayed on your character's back. ◆ Experience Points While in battle, you will receive experience points. When you level up, you will receive experience points. You will receive a greater number of experience points for defeating a greater number of enemies. ◆ Battle Field Every battle takes place on a battle field. It will be displayed on the lower screen. When you take part in a battle, you will be put in the middle of the field. When you defeat an enemy, you will be surrounded by lots of enemies. The enemies will try to surround you as soon as you take damage, and you will take damage when you receive one or more attacks from enemies. Select whether you are

One of the most impressive gaming series of the last generation, it's aimed squarely at PC/PS3/Xbox 360, Nintendo DS and 3DS. An historical journey, it's divided into five chapters that begin with the First War where you help protect the world against a force bent on world domination. It's got great depth and is a lot of fun, though the story can be a little rushed at times.

It has been an interesting week for Amazon. From it having signed a €600m deal with the Dutchman KPN to lease the modern Kringla, to it announcing it has secured ten million Kindle tablets as well as future versions of the tablet and its Honeycomb browser. Getting a tablet is now cheaper than WiMax, though thankfully the Kindle still has the distribution advantage. We need to see Amazon's strategic thoughts emerging about its new range of different devices.
