This is an indie game I have been developing ever since my first game on the Unity Engine. Please leave your feedback on the game! Please note: The game is developed in Unity 4.5.2f. I'm currently trying to reach 100 'likes' on my deviantart for this game and other game work. If I make it to 100 I will be able to submit my game to the app store. For those of you who do not know, my game this game is inspired by the game 'Flappy Bird'. But I did something different to my game, and I'm trying to make a game that is more suited to the galaxy than the birds. If you have any questions, or comments about this game, please feel free to email me: infoproductionstudios@gmail.com Or, like my page on Facebook: Thanks for stopping by! This video features a speed run of the game. It was done in the timed, no continues speedrun, which was the video record holder of 'Hill Climb' by FuzzyPlatypus at the time. The run only has one mistake, and that's on a screen where you can't reach collect the points. All the levels in the game can be done easily with only one mistake, so I believe it's possible to do without mistakes, and

RoguekiniZ is the zombie game for people who just want to kick some zombie ass. Complete fun missions, level up, craft gear, and practice your skills in order to survive and destroy the zombie horde. In RoguekiniZ players are dropped off on an island where they must survive as the zombies invade. It's the fight for the survival of the human race. As you level up, you will earn items from random loot, as well as spend points from the in-game currency, known as Galleons. RoguekiniZ is a game where the only thing you own is yourself and your equipment. Nothing else matters. This is a game of strategy and survival. To survive, you must survive. Just two things matter: Combat and loot. Like the zombies, your life is not about

fighting. It's about avoiding the fight as long as you can. You are the hero, so take the role of the Soldier. You must use your weapons, traps, and special skills to survive as long as possible. You don't need to know how to fight. Just know how to do things right. Have fun. The Guide to the Zombie Plague: The world has been taken over by a zombie plague. It's up to the heroes to rescue humanity from the brink of extinction. In a world of zombies, the world needs heroes, people who have faced similar challenges and survived. Only now it's not a survival of the fittest, it's a survival of the human race. You get dropped off on an island at the foot of a mountain. You start the game. You must survive and kill the zombies. There is a large island and an even larger mountain base. The island has settlements, characters, zombies, and items. You must get to the mountain base to kill Dr. Dolan and put an end to the zombie plague. The game ends when all the zombies are eliminated. When you start the game, you will notice a map of the area around you and a brief instruction. The game is designed to be simple and easy to understand. In order to survive and defeat the zombie hordes, players must utilize the right weapons, traps, and skills. Each weapon class has its strengths and weaknesses. The hero must use these to their advantage. Your character starts you off at level 2 and a random set of loot. You will not get more loot until you complete level 2 missions. Missions are easy c9d1549cdd
