## Silent Hunter 3 [BEST] Download Torrent

Silent Hunter II, a.k.a. Mothership Zeta, is an Action, Heavy Gunner, RTS and Tower defense game, set in the year 2068. Players are placed into battle as one of the surviving elite starfighter pilots attempting to defend their home against invading hostile forces. Your mission is to destroy enemy vessels and capture strategically vital points on a massive, hostile Mothership to win the game. Silent Hunter II was developed by a small team of three developers from the Ubi Soft headquarters in Bucharest and released by Ubisoft in 1996. It is the third game in the Silent Hunter series. The

success of the original Silent Hunter led Ubisoft to develop and release the sequel Silent Hunter II: Battle of the Atlantic.

Silent Hunter II: Battle of the Atlantic contains over 300 missions with more than 3 hours of gameplay, a story mode that explains all the game mechanics and enemy types, a destructible environment, a multiplayer mode, a demo version and a level editor. COMMENTS AND REVIEWS FOR SILENT HUNTER II: BATTLE OF THE ATLANTIC GAME. Silent Hunter II is an expansion to the original, based on a new 3D engine, and is considered to be one of the best expansion packs of all time. It goes deeper into the storyline of the original, adds an alternative way to win the game and more content. The multiplayer functionality is a great addition, with player matches and compaints being in-game against CPU players in human vs computer play. In Silent Hunter II you can choose to play either as a player campaign mode or a single player story mode, the story, as you would expect, is much deeper than the original, making it the best of all Silent Hunter games. You play as a veteran starfighter pilot, trying to escape your enemy and regain your freedom. You start by flying through the story mode, where you will encounter a special group of enemies called Black Overlords. Silent Hunter II is an Action,
