This new and innovative technology works in two ways: It allows the game to tell when players are running at speed, so they look better in motion, and It makes player movements look more natural and believable, resulting in a more realistic and enjoyable gameplay experience. FIFA 22 introduces new animation and engine-based animations. The new engine and animation systems are delivered via separate packages to certain regions of the game and each package has its own unique engine-based animation system. In FIFA 22, the new engine and animation systems give players life and authenticity. Before & After Images (Photo by EA) FIFA 22 features 22 HD matches at the 2012 Olympic Games in London, England. This is the first time that EA Sports has rendered the matches with the brand new 'Hypermotion Technology' at the game's full 1080p HD resolution. FIFA 22 also introduces the 'Reality Technology' as well as the ability to use the 'Guided Practice' feature in practice mode. In addition, the 'International MatchDay Technology' allows you to recreate the atmosphere of any football match during a full international. Football is about more than on-the-pitch action. It's about movement, vision, and unpredictability—that's why FIFA 22's new MotionScan technology brings the energy and emotion of football into the virtual world. Combining the acclaimed gameplay and power of FIFA with key innovations, FIFA 22 delivers a new sense of life to players, coaches, and fans across all formats. FIFA 22 introduces: new Player Personality attributes - including attributes to control the movement and physicality of players as well as control their aggression and psychological profiles - along with countless new animations, as well as an all-new engine and animation system, delivering a new sense of life to players, coaches and fans across all formats. In FIFA 22, every player on the pitch brings a new level of visual fidelity, player personality attributes and technique to life, as they interact with the ball in stunning full HD video. FIFA 22 introduces a new Pro Player Mode, featuring Player Substitute Systems for a 100% custom game experience. These systems will allow you to create your own team from scratch, choosing from all 32 nations, as well as player types, stadiums and kits. All of your stats, records, skills and progress will be seamlessly carried through into

## **Fifa 22 Features Key:**

- Live in the breach with "HyperMotion Technology." Using biomechanics data of live-action 22-man matches played in full motion-capture suits, FIFA 22 is the most realistic football experience available on any gaming device.
- Take control over all aspects of your club in the Game Transfer Market. FIFA 22 introduces The Ultimate Team experience that lets you upgrade and customize every matchday squad.
- More ways to progress. With Player Appearances added to the My Team and Player Experiences, you now have more ways to accomplish the fantasy that is FIFA 22.
- In-depth Player Performance Analysis. With Player Perception added to The Art of FIFA, you can see the little things that make a real player tick, from their speed and purposeful runs to their awareness and decision making off the ball.
- New snow animation, along with enhanced ball physics and control, improve the realism and feel of the game.
- Take further command of your football career with FIFA's Player Career mode, which allows you to build your own team from the ground up while forging your own path to stardom.
- FIFA Ultimate Team is at the centre of everything in FIFA 22. Play the most expansive Team Management mode ever, complete your Ultimate Team collection and decorate your club's stadium.
- Feel the thrill of living the dream in a stadium of your own design with new lighting and features that give players control over almost every aspect of their environments.
- Goal celebrations are now more lifelike than ever, with up to six players packing more punch with their celebrations.
- New seasonal celebrations are also included, with celebrations inspired by the time of the

- 
- year and will include choirs and live music.
- Improve your passing and dribbling abilities with a new swerve mechanic. Now, when players use the 'right stick with a run, swerve to your left or right with the stick,' they'll make an adjustment when they're running.
  - Move players fluidly as they cut in and out of passing lanes to deliver a pass into the centre.
  - Dribble with greater control and show off your passing sense with unique set pieces.
  - Mimicking real-life situations, you'll be able to clear the ball from off-side, send a throw-in, or even pick

**every developer, from hobbyists to professional studios, to recreate and reimagine the authentic football experiences on their favorite platform. The engine used for FIFA 22 was originally developed by DICE for the multi-platform release of FIFA 15. The new FIFA 22 engine is almost a fully rebuilt version of that engine, which will support all platforms including mobile and virtual reality. A New FIFA, A New Dawn Reimagined for the transition to next-generation technology, FIFA 22 dramatically enhances the presentation, gameplay and connectivity of the FIFA series. Optimized for high-end, next-generation consoles, FIFA 22 will revolutionize the mainstream soccer experience on both video game consoles and PC. Refined gameplay on a wider range of devices than ever before, FIFA 22 introduces a new player model and animation system, and its lighting engine renders realistic outdoor scenes that feel far more immersive. Now, every stadium that you can find in the world is in the game, from fan-favorite Olympic venues to obscure stadia from around the globe. As FIFA fans know, if there is a game on the market today that is more realistic, it is not FIFA, it is NOT FIFA and it is NOT FIFA. With FIFA 22 you are the name on the field.
