It looks like a Loader uses a Source as an animation. Is a Source an animation by itself? A: A Loader is a plugin which allows you to use some sort of provided animation for a layer (a layer being a canvas). A Source is just a way to load a vector image. As you mentioned Loaders can easily be used to make a Source from a video and also enable animation. An example of a plugin to use would be a video-mapping plugin. Sources, on the other hand, can
